THINGS TO KNOW

When should you buy Term Insurance

The best time to buy the Term Insurance is now as this will ensure that you get the life cover at lower Premiums for the desired Policy Term.

How much life cover should you choose

The life cover depends on your annual income at present. The rule of thumb is that your life cover should be equal to 20 times your annual income.

How should you choose the Policy Term

Your Policy Term should be equal to your retirement age minus current age. (This is the basis of the assumption that by then you would have taken care of all your liabilities). If you do not have a set age for retirement, then you might want to opt for the Whole Life option.

Or you may decide your Policy Term at affordable Premiums.
