Surrender

Non-forfeiture Benefits

In case of Limited Premium Policies, where premiums are payable on regular basis during the premium payment term, following Non-forfeiture benefits will be applicable.

If less than two year's premiums have been paid:

If due premium of first two policy years has not been paid before the expiry of the grace period, then the policy will lapse without acquiring any benefit.

The policyholder will have five years from the date of first unpaid premium (FUP) to revive the policy (revival period) by paying all due premiums along with interest on delayed premiums, at 9% per annum compounded monthly plus taxes, if any.

If a lapsed policy is not revived within this revival period, the policy will terminate without payment of any benefit.

If at least two year's premiums have been paid:

If all due premiums of first two policy years have been paid and any subsequent due premium is not paid before the expiry of the grace period, the policy will become a paid-up policy with reduced benefits as under:

Option	Death Benefit under a Paid-up Policy	Maturity Benefit under a Paid-up Policy	Survival Benefit under a Paid-up Policy
Signature-Investor	T/N x Death Sum Assured plus Accrued Guaranteed Additions	T/N x Guaranteed Maturity Sum Assured plus Accrued Guaranteed Additions	Not Applicable

The Company reserves the right to revive a lapsed/paid-up policy as per the Company's Board approved underwriting policy. The Company reserves the right to impose any extra premium as a result of underwriting. At the time of revival, the cost of medical examination and special tests, if any, will be borne by the Policyholder.

Surrender Value

A Limited Premium policy can be surrendered anytime provided at least two years' premiums have been paid.

The Surrender Value payable will be greater of the Guaranteed Surrender Value and the Special Surrender Value.

Guaranteed Surrender Value (GSV):

$GSV = \{GSV \text{ Factor} \times \text{Total Premiums Paid}\} \text{ plus } \{GSV \text{ Factor on Guaranteed Additions} \times \text{Accrued Guaranteed Additions, if any}\} \text{ minus sum of all Guaranteed Income benefits paid till date of surrender, if any}$

“Total Premiums Paid” means total of all the premiums received, excluding any extra premium, any rider premium and taxes.

Special Surrender Value (SSV):

The Special Surrender Value for each of the options is as follows:

Option	Special Surrender Value

Signature-Money Maker	$(SSV \text{ Factor}^{-1} \times T/N \times \text{Guaranteed Maturity Sum Assured}) + (SSV \text{ Factor}^{-2} \times T/N \times \text{Guaranteed Income})$
Signature-Saver	$(SSV \text{ Factor}^{-1} \times T/N \times \text{Guaranteed Maturity Sum Assured}) + (SSV \text{ Factor}^{-3} \times T/N \times \text{Guaranteed Income})$

T: Total number of Premiums paid

N: Total number of Premiums payable during the policy term

In case the policy is surrendered during the last policy year and all due premiums up to the date of surrender have been paid, then the computation of the special surrender value shall be done considering the Loyalty Addition payable on the maturity of the policy. For this purpose the said Loyalty Addition, shall be added to the Guaranteed Maturity Sum Assured for Signature-Investor/Signature-Money Maker/Signature-Saver Options.

SSV Factors can be reviewed by the Company from time to time subject to prior approval of IRDAI.
