MD SPEAK

Dear Customer,

The last financial year has been a period of consolidation for the markets. With little interest from FII's, markets have remained range bound for the better half of the year, but we are seeing recovery coming to various sectors. The heightened activity in infrastructure would bode well in the medium and long term, and we stay committed to the Indian consumption story.

I'm happy to share that our online term plan, Aviva iLife has seen unprecedented success. With over 20,000 policies already issued, we are seeing a heightened awareness of the need for a pure protection plan. You can login to our website www.avivaindia.com to know more about this plan, and buy it online. Aviva iLife is now available in over 186 cities all over India.

As you would have seen in our new TV advertisement, we are focusing on the 'Protection Plans' going forward. This is not only a change in nomenclature, but reaffirming our belief and a promise- that of providing solutions for your family's financial protection. In case you require to take a fresh look at your insurance portfolio, please contact your local Aviva branch today. It has been widely reported in the media that Indians remain one of the most under-insured populations in the world. As our valued customer, we would want to ensure you're covered.

We are committed to providing prosperity and peace of mind to you. In order to do this, it is important that your policy premiums are paid on time. To make the process of premium payments easier, you can opt for Direct Debit or Electronic Clearing Service (ECS), which would enable automatic and convenient premium payments. Both these payment methods are governed by the RBI, and are a safe, convenient and efficient way to ensure you are always protected. Please get in touch with our customer services in case you need additional information on Direct Debit or ECS. Insurance is a long-term protection and investment product and to ensure protection and reap the maximum benefits, it is important that you pay renewal premiums through the policy term.

Our CSR programme Aviva Street to School has impacted the education of over 235,000 underprivileged children last year through our projects with CRY, Save the Children, Arpana Trust and the Aviva Great Wall of Education. This is truly a humbling experience for the organization. In case you are interested to know more about this, please visit our website.

My warm greetings and best wishes for the new financial year!

Regards, TR Ramachandran CEO & MD, Aviva India

Equity Commentary

MARKET REVIEW

Key benchmark indices ended lower in March owing to various domestic and global events impacting investors' sentiments.

On the domestic front, several key events unfolded, which kept the markets volatile. These included the outcome of elections in UP, the railway budget, the Union Budget and the monetary policy review. Political hindrances in hiking railway fares created some negative sentiments in an environment of already perceived policy inaction by government. The move to include General Anti Avoidance Rules (GAAR) in the budget led to concerns about FIIs being taxed for investments made through Mauritius. This led to some volatility and selling pressure during the month, although FIIs were net buyers to the tune of Rs 8,381.3 crores during the month. RBI's monetary policy review expressed concern over sticky inflation and hence left rates unchanged, which affected sentiments as well.

The Q3 GDP released at the end of February showed a significant slowdown, with growth being just 6.1%. The slowdown largely came from the manufacturing sector, which grew just 0.4%.

On the global front, conflicting data kept the markets guessing about the state of the world economy. The U.S. economy grew by 3% in Q4 of 2011, indicating a better recovery which boosted investors' confidence about the growth outlook of the world's biggest economy. Earlier, the Fed had expressed some comfort on the growth in the U.S. economy and decided not to take further steps to boost economic growth, but said it would maintain the low interest rate till 2014. However, it continued to be cautious about the sustainability of the recovery, while pointing out significant downside risks to the global economy due to the euro zone crisis.

Euro-area manufacturing shrank for a seventh month and unemployment rose to the highest in more than 14 years, stoking concern that the regional economy may struggle for the next several months.

China's exports dropped significantly during recent months due to lower demand from the western economies, while the imports rose. Owing to drop in exports, China cut its GDP growth target of 2012 to 7.5%, which is the lowest in last 8 years.

The major indices closed in the red during the month. BSE Sensex and S&P Nifty dropped 1.96% and 1.66% respectively. FMCG, Healthcare and Auto were the top three gainers rising 7.83%, 4.57% and 1.4% respectively, while Realty, Power, Oil & Gas and Metal were major losers, which fell by 9.13%, 8.3%, 7.17% and 5.86% respectively. Realty stocks edged lower on profit booking. Interest rate-sensitive counters took a beating on bourses as investors, who were expecting the RBI to ease its tight monetary policy, were disappointed with the central bank maintaining status quo. Metal stocks fell on weak global prices and concerns of slowing Chinese growth.

Outlook

The forthcoming earnings releases will determine market movements in the near term. RBI's monetary policy actions will have an important role in determining sentiments in equity, fixed income and forex movements, which may also affect FII flows in the near term. Uncertainty on GAAR and developments on government policies will also affect market movements.

On the global front, data on growth in US, developments in Euro zone and developments on the geopolitical front with respect to Iran will affect markets.

Fixed Income Outlook

The fixed income market witnessed a series of events -Monetary Policy, Union Budget and announcement of the Government's borrowings calendar. The ongoing liquidity crunch in the banking sector continued to hurt short-term money market rates. Apart from structural and frictional factors, advance tax outflows adversely impacted the liquidity situation during the month. In the Monetary Policy, RBI once again made its intention clear that inflation is still a concern which reiterated the market concern of timing and magnitude of rate Increase in budgeted fiscal deficit and announcement of higher than expected Government borrowings are likely to raise supply concerns in the coming months. All these events increased the bond yields and hence the 10-year benchmark rose 37 bps to close at 8.57%.

On March 9, RBI cut its cash reserve ratio (CRR) by 75 bps to 4.75%. The implementation came just before the start of the advance tax outflows, to mitigate tight liquidity conditions. This injected approximately Rs 48,000 crore of primary liquidity into the banking system to ensure that liquidity crunch does not rise significantly. Later on, in the policy meeting, RBI kept its repo and reverse repo rate unchanged for the third time at 8.5% and 7.5% respectively.

In the Union Budget, the Government not only revised upward its fiscal deficit to GDP target to 5.9% from 4.6% for FY11-12, but also revised its budgeted one for FY 12-13 to 5.1% from 4.6%. The budgeted gross borrowing for FY13 by Government will be Rs 5.69 trillion and the net borrowing will be Rs 4.79 trillion. Market will absorb G-Sec worth Rs 3.7 trillion in H1, which is 65% of the budgeted target of Rs 5.69 trillion for the full year. This will be equivalent to a net borrowing of Rs 2.85 trillion out of Rs 4.79 trillion, slated for FY13. The quantum increase in the treasury bills borrowing calendar was a worrying factor. Government may borrow Rs 1.87 trillion during June quarter as compared to Rs 0.88 trillion in the corresponding quarter last year.

The impact of liquidity crisis during the month was reflected on both money market and G-Sec yields. Apart from huge borrowing through repo window, banks used marginal standing facility (MSF) (100 bps above repo rate) also. Net daily average repo borrowing stood above Rs 1,47,000 crore, higher than previous month's figure. Call rates and Certificate of Deposits also crossed 10.50%

Concerns over high borrowings pushed the G-Sec yields upwards. Corporate bond yields also increased across maturities. The spread between AAA corporate bond and Gilt contracted towards higher end of the curve.

Index of Industrial Production (IIP) growth for January 2012 surprisingly increased to 6.82% Y-o-Y against 2.51% Y-o-Y growth recorded in December 2011. Majority of the push was provided by the rebound in manufacturing index, which grew 8.5% Y-o-Y. India's Purchasing Managers Index (PMI) dropped to 54.7 in March 2012 from 56.6 in February. This indicates that higher productivity will largely depend on demand scenario and margins. Substantial improvement in productivity is likely to come only in a lower interest rate scenario.

WPI inflation rate rebounded after series of drops. Inflation rose to 6.95% in February 2012 from 6.55% recorded in January 2012 due to jump in prices of primary articles. Primary articles rate increased sharply to 6.28% after touching a low of 2.25% in the previous month.

Bond yields are likely to remain range-bound with softening bias in the coming months due to probable improvement in liquidity after the pickup in government spending. The borrowing calendar is front loaded and the Government would borrow Rs 65,000 crore in the coming month. After the surprise bond buyback on March 30 with no scheduled auction, market is expecting RBI to announced similar ones to mitigate the load of borrowings. Next monetary policy would be held on April 17 2012. Market will take further cues from the action and stance of the RBI from the event.

The Bonus rates declared for Life Unitised with Profits fund and Pension Unitised with Profits fund are 5.25% and 5.75% respectively for 12 months ending September 30, 2012.

All return shown in AVIVA investor for series II funds, Infrastructure, PSU Fund, Life Bond Fund, Pension Protector Fund, Life Index Fund, Pension Index and Life Enhancer Funds are net of Fund Management Charges. Returns shown for rest of the funds are without deduction of charges.

Risk control: As a measure of risk control, the investment committee reviews on a quaterly basis, the portfolio composition and the performance vis-a-vis benchmarks of all the funds under management. The investment committee lays down the Investment Mandates and Philosophy which are reviewed periodically. All investments are made within the Parameters laid down by the Investment Mandates and Philosophy.

WHERE AND HOW YOU CAN MAKE YOUR PREMIUM PAYMENTS:

Walk into any of our branch offices and pay your premium through multiple modes (Cash payments only less than ₹ 50,000/- only).

Pay your premium online via net-banking (available with selected banks).

Make payments through Net Banking or by submitting the NEFT form to the bank.

Pay your Premium at any of the Axis Bank Branches.

Pay your premium online using your Visa or MasterCard Credit Card.

Avail this facility if your premium amount is above ₹ 5,000.

Give ECS instructions to your bank account and make premium payments.

Pay your premium with your credit card (VISA or MasterCard) by calling us on 1800-180-2266

Disclaimer

Insurance is the subject matter of solicitation. For more details on risk factors , terms & conditions, please read sales brochures carefully before concluding a sale. Past returns are not indicative of future performance. Unit-Linked Life Insurance products are different from traditional insurance products and are subject to risk factors. The premium paid in unit-linked life Insurance policies are subject to investment risks associated with capital markets and the NAVs of the units may go up or down based on the performance of the fund and factors influencing the capital market. The insured is responsible for his/her decisions. Aviva Life Insurance Company India Limited is only the name of the Insurance Company and the various funds offered under this contract are the names of the funds and do not in any way indicate the quality of the contract, its future prospects or returns. Please know the associated risks and the applicable charges, from your Insurance agent or the Intermediary or policy document or the insurer. The premiums and funds are subject to certain charges related to the fund or to the premium paid and there is a possibility of increase in charges. The various funds offered under this contract are the names of the funds and do not in any way indicate the quality of these plans, their future prospects and returns. Unit-linked funds are subjects to market risks and there is no assurance or guarantee that the objective of the investment fund will be achieved. Past performance of the investment funds do not indicate the future performance of the same. Investors in the Scheme are not being offered any guaranteed / assured results.

Benchmark Indices Provided by CRISIL

The composite indices are computed based on notional Asset Allocation (weights for sub indices) provided by Aviva from time to time. Such weights for the sub indices would impact the return of the composite index. CRISIL does not take responsibility of variations in the returns due to such changes in weights for sub indices. CRISIL indices are sole property of CRISIL Limited (CRISIL) indices shall not be copied, retransmitted or redistributed in any manner for any commercial use. CRISIL has taken due care and caution in computation of indices, based on data obtained for any errors or for the results obtained from the use of the indices. CRISIL especially states that it has no financial liability whatsoever to the users of CRISIL indices.
